Subject: Re: xrp price

The selling account just got ANOTHER refill of 20mm XRP from Jed's same founder account. The selling account down to 6.5mm XRP prior to this refill.

Parent account: <https://ripple.com/graph/#r43mpEMKY1cVUX8k6zKXnRhZMEyPU9aHzR>

I think at this point, we have to assume he's going to keep this up for a while. Any viable counter measures we can take?

The seller account just received another 20mm XRP, which means it has a total of 27mm XRP left to go. It sold another ~7mm XRP today.

The 20mm XRP came from the second "child" account funded by the original 200mm parent last week.

pretty much has tracked the decline in BTC as the market digests the news from China and the new IRS ruling. Also, keep in mind that last year at this time also saw a sell off - likely US BTC owners selling BTC to pay substantial BTC tax bills.
